

Thank You

Starfish Christian Trust

A BIG THANK YOU STAR FISH CHRISTIAN TRUST FOR RELEASING INNOCENT CHILDREN FROM SLAVERY & BONDED LABOUR

Dear Trustees,

Greetings in Jesus precious name

We are so glad that we are able to rescue the innocent children from slavery and bonded labour. Although this has been the rescue of the doctor who is helping us and our children a lot with his generous support, he sends his hugs to the trustees for showing compassion and love for these innocent children.

The good news is the doctor is bearing the medical treatment of these children and although these children are having complicated health issues, the doctor decided to put these children in his home for some period of time and then he sends them to hostel.

This is the best Christmas present for these children and they are very thrilled to say these

"We do not know who you are, but you showed a great love in reaching us with your hearts and compassion, we never thought that we would come out of this mafia mob, and sometimes we are tortured and we tried to kill ourselves, but our God has a better plan for our lives and He moved your hearts from other world and touched us and gave us a better life. We are having a bright future now and we truly thank doctor's family for putting us in his little home, and we are happy that we will be educated now, and we will have a bright future. We will pray for you and for your families and we thank you once again.

The doctor says

*" Thank you Star Fish Christian Trust for showing your love in releasing these children and Pastor Joshua told we cannot do this rescue because the funds are too hard, but I prayed that Lord will provide the resources and God answered my prayers and moved you to release these children. I assure you that I would take care of their medical treatment until I am alive in this world and I also promise that any future rescues, I would consider giving them discounts whatever I can and I am also checking the progress of the health of the **Hope Children's Home**.*

Pastor Joshua says,

Thank you Star Fish Christian Trust for this big rescue which made the children lives happy and they came out of the critical conditions of their lives. I thank personally Bro Stan Gain's efforts in raising funds for these rescue in this challenging year where the UK is facing a lock down. With God All Things Are Possible.

Once again we thank you all for these rescue and we always understand the Star Fish Principle, Save One Life At A Time.....

Love to you all.

Your Loving Brother

Joshua
